

RECOMBINANT COLLAGEN MULTI-RAPID REPAIR SPRAY

D-Nutrimec Collagen Repair Spray delivers intensive hydration and skin barrier reinforcement, ideal for post-treatment recovery (e.g., microneedling, laser) by promoting collagen restoration.

Formulated with Recombinant Human Type III Collagen, alleviates post-treatment itchiness and swelling while accelerating healing—dubbed the “collagen emergency fire extinguisher” for its rapid soothing effects. The combination of recombinant collagen, sodium hyaluronate, and p-hydroxyacetophenone has moisturizing, antiseptic, and barrier repair effects.
